FAMILY COUNSELING

1 GEZIN  
1 PLAN

As a parent you want the best for your child. But this is not always easy: your child does not listen, you worry about your child, the house is not suitable for your family, you cannot find a job, ...

The '1 family 1 plan' family counseling listens to all your family's questions and concerns. We write them all down. This makes clear which questions you have and what you want help with.

### *Your family is not alone!*

The family counseling of '1 family 1 plan' searches with you and your family who can help you. This can be family, a neighbor, a social worker, ... All these people think together with you and your family about how they can help you.

We write agreements in the family plan: *who will help your family, when and how?* Family counseling ensures together with your family that the plan is implemented.
